Herbicide Price List -- 2002^{1/}

Leon J. Wrage, Extension Weed Specialist
Darrell L. Deneke, Extension IPM Coordinator
Brian T. Rook, Senior Agricultural Technician

The listings are approximate retail price for small lots (5 gal. or case); prices may vary in different areas of the state. The prices are based on results of a statewide dealer survey of posted prices for small quantities. Bulk discounts, rebates or seasonal changes are not considered. The price is calculated as a point about midway between the average and high. Cost for non-crop products is based on information from commercial sources. Retail prices frequently are 5-10% less. Producers should consult local agriculture product supplier. Some newer herbicide formulations did not have prices when this was published.

Abbreviations

W = wettable powder
L = liquid

E = emulsifiable liquid
G = granule

P = pellet
SP, DF, DG, WDG, WG, WSG = dry flowable

Trade Name	Common Name	Company	Cost	Trade Name	Common Name	Company	Cost
AAtrex 90DF	atrazine	Syngenta	\$2.50/lb	Callisto 4L	mesitrione	Syngenta	512.00/gal
